The whole workspace.

Garden / Playground / Worktrees / Accounts / Settings

More depth. More useful color. A clearer place for every kind of work.

Separate Drafts

Ideas remain in their own inbox until specification approval.

Selectable state board

Each lifecycle column is a list; every task can be focused and opened.

Visible submenus

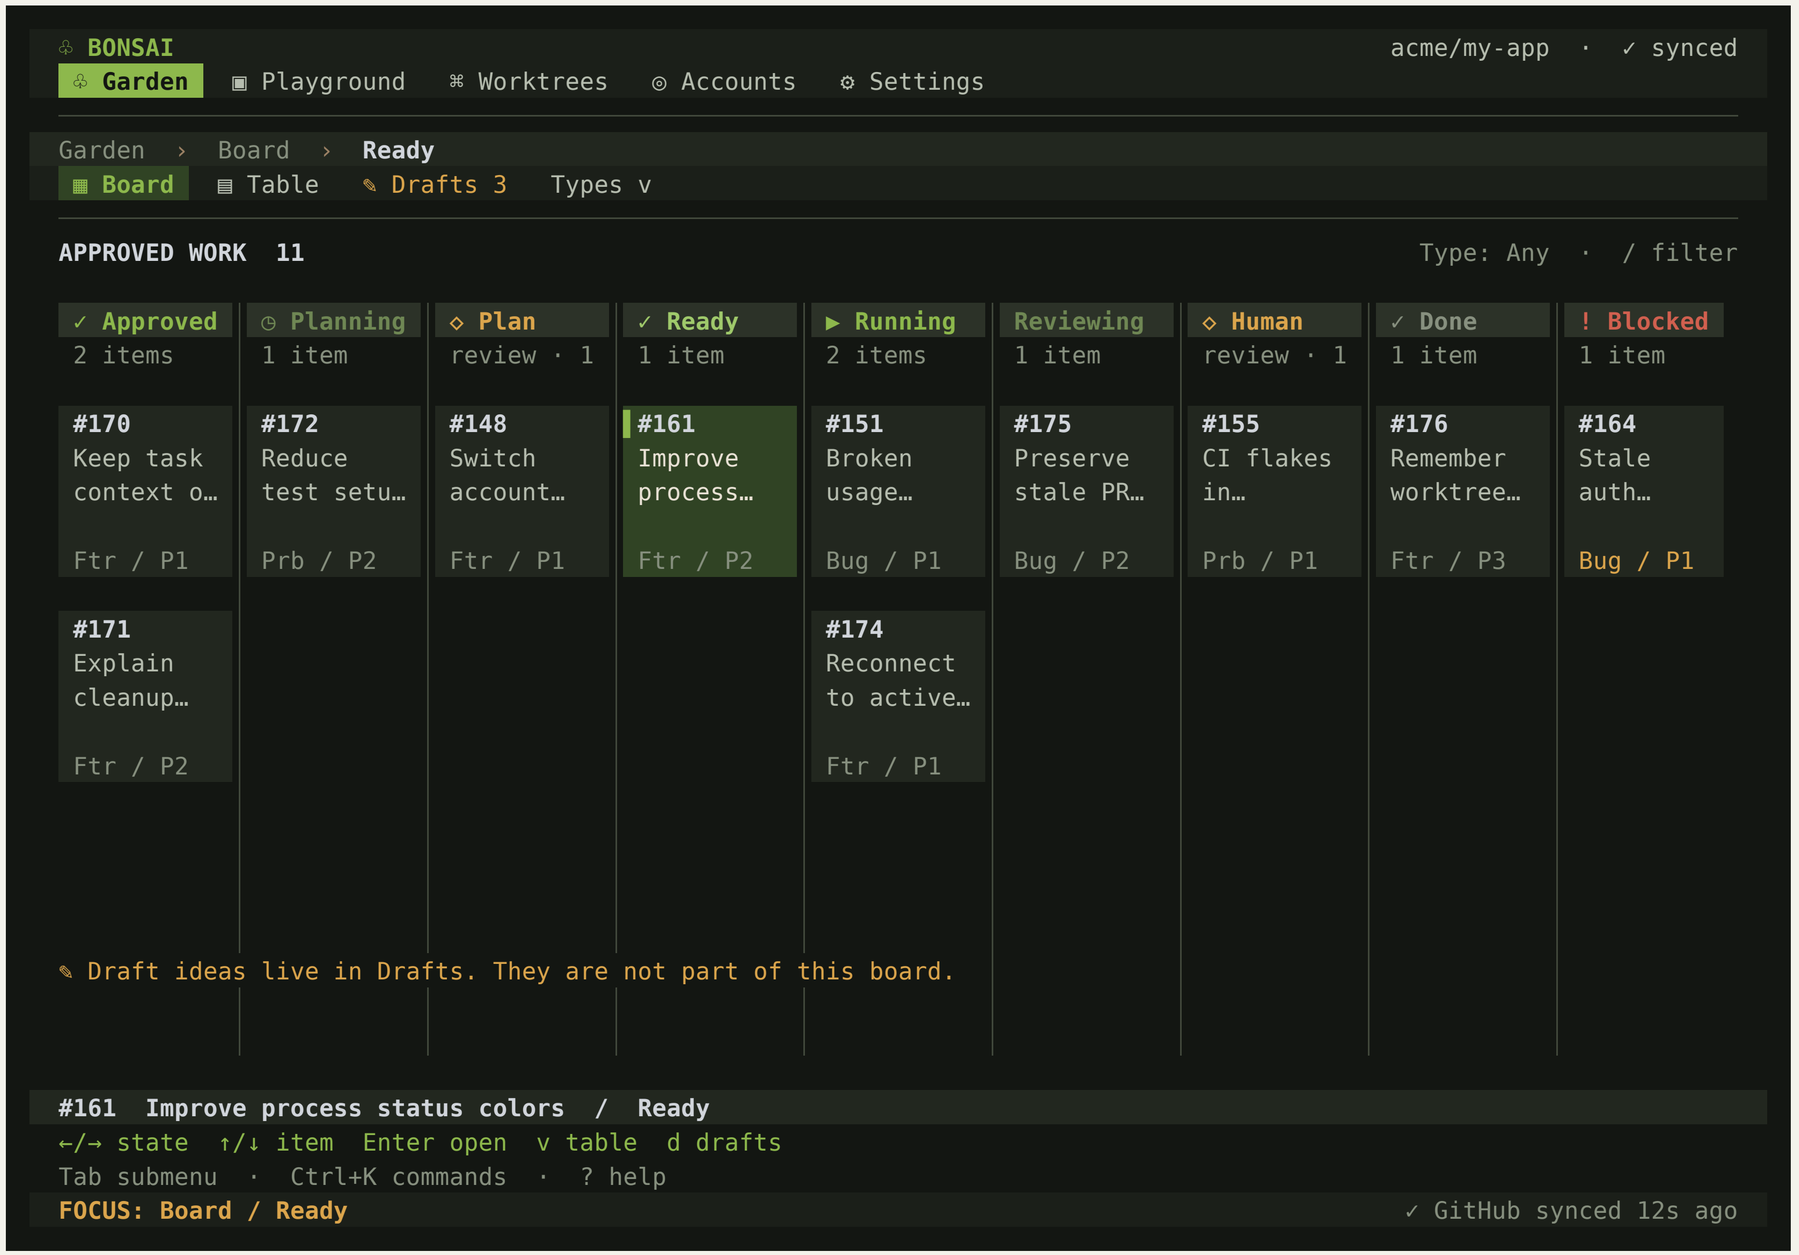

Breadcrumbs, shaded rails, active fields and back paths show depth.

Capacity in context

Provider identity and labeled usage bars live in Accounts and sessions.

Approved work, by state

120 × 35 / A board of approved work, with a selectable list in each lifecycle column.

Click any card to select it; Enter opens the item. Left/right changes state column; up/down changes item. Drafts are a separate collection.

All approved work in a selectable table

120 × 35 / A row table of approved work; Drafts are excluded.

```
